	1. TO TO TO TO		002	0077012010			
This wo	rksheet is used to determine whether an organization (or c	organization's site) is engag	ed in research.				
®							
1. L	Inconditional engagement criterion (The organization is	s engaged if the following cr	iterion is met)				
1.1	The organization receives funding directly from a federa	I department or agency (oth	er than DOD) for non	n-exempt research.			
2. Conditional engagement criteria: (The organization is engaged if any of the following are true, unless criterion in Section 3 are met)							
2.1	Employees or agents will obtain data about subjects through	, , , , , , , , , , , , , , , , , , , ,			,		
2.2	Employees or agents will obtain data about subjects through intervention for research purposes						
2.3	Employees or agents will obtain informed consent of sul						
2.4	Employees or agents will obtain identifiable private infor	mation about subjects for re	esearch purposes				
3. Engagement exclusion criteria: (The organization is not engaged if all Section 2 criteria are situations where one or more of the following are true.)							
	Employees or agents will perform commercial or other s	ervices for investigators, wh	nere all of the followin	g are true:			
3.1	1) The services performed do not merit professional	recognition or publication p	rivileges	soarch			
	 2) The services performed are typically performed b 3) Employees or agents do not administer any study 	intervention being tested o	r evaluated under the	e protocol			
	The organization was not selected as a research site by	it employees or agents will	provide clinical trial-re	elated medical service	s that are dictated by		
	the protocol and are typically performed as part of routin investigators, where all of the following are true:	e clinical monitoring or follo	w-up of subjects enro	olled at a study site by	clinical trial		
	1) Employees or agents do not administer the interv	entions being tested or eval	luated under the proto	0.00			
3.2	 2) The clinical trial-related medical services are typic 3) The organization's employees or agents do not el 	cally provided by the organized	zation for clinical purp	oses	lle a secondo		
	 4) When appropriate, investigators from an engaged 	nroll subjects or obtain the I d organization retain respon	nformed consent of s sibility for both	ubjects to take part in t	ine research		
	a) Overseeing protocol-related activities						
	b) Ensuring appropriate arrangements are made reporting of safety monitoring data and adve	e for reporting protocol-relat	ed data to investigato	ors at an engaged orga	nization, including the		
	The organization was not initially selected as a site, but			tions heing tested or e	valuated under the		
	protocol on a one-time or short-term basis, where all of t	the following are true:		Ũ			
	 An investigator from an engaged organization det or evaluated 	termines that it will be in the	subject's best interes	st to receive the interve	entions being tested		
	2) The organization's employees or agents do not e	nroll subjects or obtain their	informed consent to	take part in the resear	ch		
3.3	 3) Investigators from the organization engaged in the 	e research retain responsib	ility for all of the follow	ving: '			
	 a) Overseeing protocol-related activities b) Ensuring the interventions are administered in 	n accordance with the proto	col				
	c) Ensuring appropriate arrangements are made	for reporting protocol-relate	ed data to investigato	rs at the engaged orga	anization, including		
	the reporting of safety monitoring data and a 4) The organization's IRB is informed that intervention	adverse events as required	by the protocol ad have been admini	stered at the organizat	ion's site		
				Stered at the organizat	1011 3 5110		
	Employees or agents will do any of the following: 1) Inform prospective subjects about the availability	of the research					
3.4	 2) Provide prospective subjects with information abore representatives of the investigators 	but the research but do not o	obtain subjects' conse	ent to take part in the r	esearch or act as		
	 Provide prospective subjects with information about the subject of t	out contacting investigators	for information or enr	ollment			
	4) Seek or obtain the prospective subjects' permission	on for investigators to conta	ct them				
3.5	The organization will permit use of its facilities for interve				ation		
3.6	Employees or agents will release to investigators at ano	ther organization identifiable	e private information a	about subjects			
3.7	The organization's employees or agents both:	nanization involved in the re	search that retains a	link to identifiable prive	ate information		
	 Obtain coded private information from another org Are unable to readily ascertain the identity of the 	subjects to whom the coded	information or speci	mens			
3.8	The organization's employees or agents access or use	identifiable private informat	on only while visiting	an organization that is			
	Iresearch, provided their activities are overseen by an IR			arch			
3.9	Employees or agents access or review identifiable priva	÷.					
3.10	Employees or agents receive identifiable private informa	1 1 2	0 1 0 1	uirements			
3.11 Employees or agents author a paper, journal article, or presentation describing a research study							
4. Notes							
5. F	ootnotes						
Employees or agents refer to individuals when (1) act on behalf of the organization: (2) exercise organizational authority or responsibility; or (3) perform organizationally							
5.1 de	signated activities.	g, <u>(</u> _,	5	· · · · · · · · · · · · · · · · · · ·	- <u>.</u>
